The Honorable Julius Genachowski, Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Re: DA 12-1863, IB Docket No. 12-340; RM-11683

Dear Chairman Genachowski:

Thank you for the opportunity to submit comments in support of LightSquared's License Modification Application. Many of my customers in Missouri do not have many options for mobile broadband access. I believe that LightSquared's new network could change that so I strongly urge you to approve its request to modify its license.

As you know, in many rural parts of Missouri where I am from GPS devices are very important to farmers. But access to wireless broadband is also important and helps me compete with businesses in the more urban areas of the state. It appears there is a solution since LightSquared has offered to give up its rights to use the spectrum that caused interference with GPS devices. In return, LightSquared needs your approval to enter into a spectrum sharing agreement with the federal government. I hope that you grant it.

Thank you for your time and I appreciate your consideration.

Sincerely,

Gus Wagner
